
from ye middys of Septembr vnto ye middys of Decembr is oppyn tyme of planteyng and yet from ye
middys of Janyr vnto ye middys of ogarche [illegible] tyme is gode to chese whan ye ayone is vrsy vm
ye dayes cide ~~after~~ plene lunes, [illegible] dayes afer ye conuncion
[illegible] is gode to graffe in or in dayes lefer ye chaunge
[illegible] for planteyge of al man thyng ye day of ye chaunge, ye seconde and ye iij ben
ye best dayes

Putte a stokke of welow in ye erth in a longe putte lyke a fazob, and lette hit growe, yan a bone in y
make hole endelonge, in whas dyfter yat smale [illegible] of a milbery tree ente in tryse of weggys at
planteyge endis to stonde fuste in ye dyfter, [illegible] hole [illegible] ye fust with erth, and hide ye stokke wel w
And noon oper tree shal peryshe yat is planted in this [illegible] / after ye first yeer or ye seconde yeer salve
elwo ye bramches with a sharpe salve, and transplante him in apte places.
make a bad place ye grette of iij fyngr brede in a fand bolle of appelerce or perdrice, claye hit, and
hit fast with mosse as ye doo in graffyng, and so lette it growe al ye yeer, and yeer wol rise a greet
, and ye nept yeer ye may vnbynde it, and set it wher yeu lyk eth, and thus may ye have a gardyn in s
ryme, of greetnesse of a gode stasse
Take longe reddys dryise and sette him in a mygy groude [illegible] in a moyste groude by tlbene the .ij. sey
many dayes, and than a none vpon aylhelmasse sleye ye [illegible]er ende and put ye wyre doune in
ye erth, and so lette him growe, and in eiy fote whan seson comyth sette a grasse, and so let it w
al ye nept yeer. than salve of eiy knotte and in tyme of seson sette him, and within .j. or .ij. ye
ye may have a fair gardyne without coste that wol ber ye seconde or ye iij yeer sikyngly
Slyfrs also of trees sette in tyme of yeer wol ber sone, but it wol be longe or they be greet t
Take ye harde peppyns of rosis yat ben ripe, and solve him in ye erth in ffebrel or in ogarche, a
whan yey sprynge delve him wel with water, and after a yeer complete ye mayste transplante h
delve a bonte ye rosis ye space of an hande brede or .ij. and moyste her syonys with warme water
So mayste ye have rosis tymely.
Syne Onyon sede or lekes seed in a soste lynnen clouce, wete him wel and putte in ye erth mo
iiij fyngr depe, so shal thay wexe greet.
Grasse on an holme tree a grasse of an Oke, and it shal be grene wynt and summer
